erwin pioneered data modeling technology, and erwin Data Modeler by Quest has been the No. 1 data modeling software for more than 30 years.

With erwin Data Modeler, you can visualize any data from anywhere regardless of structure or location. Its advantages include:

- ✓ A modern, customizable modeling environment
- ✓ Breadth of DBMS integrations and metadata bridges
- ✓ Model and database comparisons and synchronization
- ✓ Roundtrip engineering of database code
- ✓ NoSQL data modeling support
- ✓ Multiple versions to meet specific customer requirements
- ✓ Extraction/conversion of data from ERP, CRM and other enterprise applications

erwin Data Modeler is also the foundation of any enterprise metadata management, data governance or data intelligence effort.

That's why it's part of the larger erwin EDGE by Quest platform of integrated enterprise modeling and data intelligence solutions, including data catalog and data literacy capabilities.
